

## **CONTRACTOR'S RESPONSIBILITIES FOR SAFETY AND ENVIRONMENTAL COMPLIANCE**

Any questions pertaining to these specifications should be directed to the Buyer or a Northeast Utilities company representative.

1. Contractor is aware of and has reviewed all safety and environmental practices, programs or specifications which Contractor has agreed to use and abide by, including without limitation, the following:
  - NU Contractor Work Rules and addenda;
  - All safety or environmental practices and programs;
  - All safety and/or environmental practices, programs or specifications set forth in the General Terms and Conditions or other contract documents;
  - All safety and/or environmental special conditions or other specifications;
2. All Contractor employees and subcontractors have been or will be made aware of all such specifications before starting work.
3. All Contractor employees and subcontractors will utilize and abide by these specifications.
